## SKILLS

---

- React.js
- React Native
- TypeScript
- Javascript
- Python
- Java
- MongoDB
- Mysql
- Figma
- GitHub

## LANGUAGES

---

- English
- Nepali
- Hindi

## SOFT SKILLS

---

- Strategic planning and Implementation
- Good communication skills
- Problem-solving and Critical Thinking
- Time Management and Multitasking

## PERSONAL PROJECTS

---

### STUDYBUDDY - FRONTEND

**Technologies:** React.js, TypeScript

- Developed a student-focused frontend platform that enables peer-to-peer collaboration and interest-based matching to connect learners with compatible study partners.
- Designed features like goal tracking, workspace, ai assistant and a clean interface to enhance productivity and user experience.

[Project Link >](#)

### BAZAARO - FRONTEND

**Technologies:** React Native, TypeScript

- Built a frontend mobile app interface for a platform that connects users with local stores offering the exact items they need, using location-aware search.
- Implemented features like real-time offer comparison, store directions, and a seamless UI for browsing and discovery — all in one intuitive app experience.
